JURORS TO SEE BY MICROSCOPE THE SCAR ON SKIN OF THE DEAD WOMAN

Expert Says the So-Called Scar Is Simply a
Fold in the Skin--Crippen Makes Damag-
ing Admissions Regarding His Re-
lations With Ethel Leneve

London, Oct. 21.—Dr. Hawley H. Crippen, accused of the murder of his wife, known to the theatrical profession as Belle Elmore, was again a witness today.

Before Crippen entered the witness box from which he gave his direct testimony yesterday, Lord Chief Justice Alington announced at his own request that the jury would be allowed later in the day to examine microscopically the skin from the part found in the Hildrop Crescent cellar which bears, as alleged by the prosecution, a scar such as Belle Elmore received from a surgeon's knife twelve years ago. The defense claims there is no scar but that what appears to be such was caused by a fold in the skin.

The quartermaster of the steamer Montrose, who, Crippen testified yesterday, entered into a conspiracy to hide him during the flight to Canada, is now in London. Mr. Muir had a long talk with him last night.

When Crippen was escorted to the witness box today he assumed the same characteristic attitude he did when facing his own counsel.

Mr. Muir, losing no time in preliminaries, asked Crippen whether he had seen or heard of his wife since early on the morning of February 1st. The witness replied in the negative. He said he could not prove any fact showing she had left the house alive.

He supposed she had gone to Bruce Miller, her professional acquaintance who lives in Chicago. That was the only guess he could make. He made no inquiries. The witness said he had seen his wife between 2 and 3 o'clock in the morning of February 1st when they retired as usual.

That morning he prepared his own breakfast. Returning home in the evening he found Mrs. Crippen had disappeared as she had threatened to do. He made no inquiries regarding the passenger lists on vessels calling at Chicago. That was the only guess he could make. He made no inquiries. The witness said he had seen his wife between 2 and 3 o'clock in the morning of February 1st when they retired as usual.

Crippen Did Not Force Her.

Mr. Muir suggested if the witness's wife were alive she would call on her sister in the United States. Crippen's reply to this was that if his wife had gone with another man she would not have "the face" to go to her sister. This opinion from the witness-box drew forth a chorus of "Ohs" from the spectators.

Regarding the disposition of Belle Elmore's jewelry, the witness said he considered he was quite entitled to it. Inspector Dew he had not pawned his wife's valuables as these had been purchased by his mother. He considered them his property. He had used the proceeds of the sales to pay for advertising. He did not know what cash his wife had at the time she left him.

"I wanted her," said the witness, "if she wanted any money. She replied 'No, I want nothing.'"

Counsel took up the subject of the letters and statements to Belle Elmore's friends which the husband had made regarding her death.

Crippen admitted that all were lies and willingly assented to the suggestion that he had to play the role of a bereaved husband.

When Mr. Muir asked Crippen if he thought he played the part well, the witness replied:

"That's for others to judge."

Use of Hyoscine.

Lord Chief Justice Alington and Counsel Muir asked the witness questions regarding his use of hyoscine, a poison which the prosecution alleges was administered to Belle Elmore and caused her death. Mr. Crippen said he had not purchased any hyoscine before or after the trial. He proved by the crown and on which he had prescribed hyoscine.

The witness suggested it was possible the human parts found in the cellar of his home had been placed there during a periodical absence of himself and wife.

It developed in the cross-examination that no time was lost in establishing Ethel Clare Leneve, the dentist's typist, in the Hildrop Crescent home. Crippen admitted that Miss Leneve had slept in the house on Feb. 2, within 24 hours after his wife had disappeared.

On July 9, after he resolved to go away from London, he directed against him. He feared he might be arrested and called until his wife was found. He wished also to spare Miss Leneve, whom he persuaded to disguise herself and quit London, by explaining that the statement he made to Inspector Dew involved her as well as himself.

He told the girl there would be a

JAS. A. PATTEN IS SENSIBLE MAN

now sit down," said the Colonel. The crowd wanted to hear more.

"He has had his chance and now I shall answer him," said the Colonel. There was some feeling, but the Colonel demanded silence and got it.

"I am delighted he asked the question, and delighted to answer it," said Mr. Roosevelt, "because it so well illustrates the absolutely consciousnessless misrepresentation that is so prevalent. The trouble is with this gentleman and others of his kind that they do not draw any distinction between rendering honest service and swindling. We stand where Harry Stimson stands, for the honest businessman, he is big or little."

At an early hour 75 armed men from the mountain section where the crime was committed proceeded to the county jail. Admission was gained and the guards, awed by the men, made no resistance. The prisoner was then released.

STRIKE ON GOULD ROAD

May Extend to the Rio
Grande and Even the
Western Pacific

St. Louis, Oct. 21.—Approximately 2,500 men, employed in the mechanical trades on the Missouri Pacific and Iron Mountain system, walking out in sympathy with the striking machinists at 10 o'clock this morning. The exact number of men who quit work will not be known at the time the headquarters until late in the day.

The order to quit work was telegraphed last night to the boiler-makers, blacksmiths and pipe men by their unions, after the machinists had failed to settle their trouble with General Manager Sullivan of the Missouri Pacific. Less than 100 men are employed in the mechanical department and they walked out.

The principal shops of the road are located at St. Louis, Little Rock, Ark. Shops are also maintained at Kansas City, Jefferson City, De Soto and Crane, Mo., Wichita, Holington and Coffeyville, Kas., Texarkana, Paragould, Van Buren and Meigs, Ark.; Lake Charles and Ferriday, La.; Omaha, Neb.; Pueblo, Colo., and Dupont, Wis.

Members of the unions also are employed at the fifty-two division and terminal points of the two lines. The unions' men say that the road will not be able to operate their locomotives more than a week without the men who quit today. They say they are necessary to keep the engines in running order. If the trouble is not settled within a reasonable time the heads of the unions have decided to cause a walkout on all the Gould lines. These include the Denver & Rio Grande, International & Great Northern, Rio Grande Western, Western Pacific and Cotton Belt railroads.

The main trouble with the road will result from a change in the working conditions.

Men Walk Out.

Kansas City, Oct. 21.—All the union boiler-makers, blacksmiths and pipe men of the Missouri Pacific railroad company struck at 10 o'clock this morning in sympathy with the machinists of the road who have been out for several months.

Fifteen hundred men are involved in the strike called. The strike order was issued by the unions, by the unions of the boiler-makers, blacksmiths and pipe men.

Local officials of the railroad said that up to noon today the strike had not affected the train service. It was the main trouble with the road will result from a change in the working conditions.

MURDERER IS RELEASED

Mountainers Enter Jail
and Take a Prisoner
From Guards

Livingston, Va., Oct. 21.—Mountain friends of John Moore, under sentence to be electrocuted, for the murder of Frank Howl, descended upon the Nelson county jail at 10 o'clock this morning, stormed the building and rescued the prisoner. It is supposed he will be taken to the mountains and liberated.

At an early hour 75 armed men from the mountain section where the crime was committed proceeded to the county jail. Admission was gained and the guards, awed by the men, made no resistance. The prisoner was then released.

HAVE BEEN OUTPLAYED

Cubs Are Not in the
Same Class With
Athletics

Chicago, Oct. 21.—Wet grounds and a drizzling intermittent rain caused a postponement today of the game scheduled between Chicago and Philadelphia. It will be played off here tomorrow. Should Chicago win, the fifth game will be fought out on the local grounds also.

Chicago, Oct. 21.—The championship game scheduled for today has been postponed tomorrow. Chairman Herrmann made the announcement after an examination of the grounds. The umpires found the whole field saturated. There was likewise the official prediction that more or less rain would fall throughout the day and there was nothing to do but to order the postponement.

Chicago, Oct. 21.—The forecast for tomorrow is "fair and cooler." Forcaster David Cuthbertson said that the weather probably would begin to clear tonight and there might even be a bit of sunlight tomorrow.

About 200 persons, including a number of women, were lined up in the rain waiting for the ticket windows to open when the announcement was made. There also were many boys who had hoped to sell their positions to late-comers.

If there is any advantage to anybody in the postponement it is said to accrue to Chicago on the theory that any possible change affecting the local players in their present gloomy position can be only for the better. A day's rest, however, can do Philadelphia no harm.

In the unexpected event that Bender should be hit freely tomorrow, Coombs, with a day's recuperation to draw him up, could be used again. Brown and Cole, either of whom may pitch for Chicago, are in no great need of a vacation. Cole has not pitched so far and Brown has not.

This balloon has broken all world's records made in competition.

Halley, Oct. 21.—The balloon Germania landed at Ville Marie, 50 miles from here, yesterday. Ville Marie is reached by boat three times a week. Only the brief message that the balloon had landed, has so far been received.

BALLOONS NOT SEEN

Three Are Unaccounted
For in the Long Dis-
tance Race

St. Louis, Oct. 21.—Three balloons, the America II, the Azura and the Dusseldorf II, contestants for the international balloon cup and prizes, remain to be reported. It is believed at the Aero club that the aerostats have landed in the wilds of Canada.

The Germania, according to a telegram from Halley, Ont., was seen there yesterday going northeast in a forest of northern Quebec. The Germania is covered with aluminum dust and it is easily identified.

The America II, the only American entry not reported, carried 30 bags of ballast. Aerostats here do not believe that it could remain in the air 57 hours, the time from when it left here on Monday until 9 o'clock this morning.

The last balloon to land was the Helveta, piloted by Colonel Schaeck, winner of the race from Berlin in 1908. He landed in Pontiac county, Quebec, 50 miles from St. Louis, Wednesday.

So far the balloon which was reported to have passed over Klekkings, Ont., is believed to have gone the greatest distance, about 1,100 miles. This balloon has broken all world's records made in competition.

Halley, Oct. 21.—The balloon Germania landed at Ville Marie, 50 miles from here, yesterday. Ville Marie is reached by boat three times a week. Only the brief message that the balloon had landed, has so far been received.
